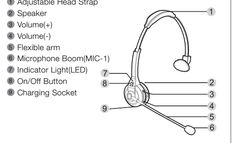
02. B042 Bluetooth® Headset Overview



03

03. Charging the battery

Charge the battery completely before first time use.
1)Connect USB Cable to the equipped charger or other standard USB power output devices such as computer to charge the battery.
2)When the headset is charging, the red indicator light will turn on. When the battery is fully charged,the red indicator light will turn blue.
3)Charging the battery fully may take up to 3 hours.

NOTE:
- When the battery power is low, the headset will remind you by voice prompt "Battery low, Please charge" every 20 seconds, and the red indicator light starts to flash. Please charge the battery then.
- B042 is powered by built-in Poly Li-ion battery. Please ensure that the battery is fully charged if you do not use the device for a long period of time. To avoid damage to the battery life caused by a complete discharge, the battery should be charged at least every 6 months.
- When connecting B042 with iPhone, a battery meter will display on your iPhone.

04

04. Pair with your Bluetooth® phone

Before you use your headset the first time, you must pair the unit with a Bluetooth® enabled mobile phone. Pairing is a one-time process and required only for the first connection with the Mobile phone.

NFC Smart pairing

The NFC smart pairing procedure is available for B042 to make the paring much simply and quickly.
Please ensure the your mobile phone's OS version is Android 4.1 or upper. The NFC sensor usually locates at the back of phone. Please enable the NFC function in the setting menu of your phone first.
1)Unlock your phone's screen to enable NFC detection, and touch the NFC sensor of headset to the back side of mobile phone. The mobile phone will emit tone prompt if detect the headset closing.
2)The headset will turn on and enter paring mode automatically.
Confirm the paring request on the phone screen, then paring will complete.

Otherwise, please follow the general steps to pair your headset.

General procedure

1)Press and hold the Power button for about 5s, the indicator light will flash red and blue intermittently. Voice prompt: "Power on, in pairing"
2)Find the Bluetooth® setting of your Mobile phone and start the search for Bluetooth® devices. (For further details, please read the operating instructions of your Mobile phone).

3)From the list of devices found, select the "B042". If required, enter the PIN code "0000" and confirm the entry.
4)Once the pairing process is successful, the B042 will connect to Mobile phone automatically (some Mobiles phones require to confirm manually) then switch to standby mode, the indicator will flash blue every 5 seconds.
Voice Prompt: Pairing successful.

Note:
1)NFC sensor of the phone varies from phone to phone.
2)The phone's display screen must be unlock while pairing.
3)The B042 supports Multi-connection that allows for the simultaneous use of the B042 with two mobile phones. After pairing successfully with 2 mobile phones, switch off the headset and switch on again, the headset will connect to both 2 mobile phones automatically. Otherwise, you can connect the headset in the cellphone manually.
4)If pairing is not completed within 2 minutes, the headset will turn off. If this happens, please repeat the pairing steps.

05

05. Turning headset on /off and connection
